

Glenmont, NY
November 2022, FOR IMMEDIATE RELEASE

Three Independently-Owned New York Equine Veterinary Practices Host Premier Equine Veterinary Student Event

The seventh annual Future Equine Practitioners Weekend by Cavalcade was attended by thirty-seven second and third year equine veterinary students from six veterinary colleges across North America September 10-11, 2022.

After two years of virtual programming, Cavalcade Management Group's independently-owned founding practices Millbrook Equine, the Equine Clinic at OakenCroft, and Rhinebeck Equine were pleased to welcome students back for two days of in-person programming.

"The Future Equine Practitioners Weekend is a great way for students to take a step out of the classroom and get experience with live horses," shared Dr. Allie Catalino, Organizing Chair for this year's event. "The connections between students and practitioners at this event help pave the way for career development. We look forward to sharing our enthusiasm for the profession with students each year!"

With an emphasis on exposing students to a variety of hands-on experiences and valuable discussions with practicing veterinarians, the weekend featured wet labs and discussions that covered a variety of topics. Attendees gained invaluable experience with abdominal/ thoracic ultrasound, ophthalmology, reproduction/ rectal palpation, chiropractic, distal limb ultrasound, and joint injections.

New for 2022, Cavalcade Management Group introduced a unique Intern Fair through which students had the opportunity to network and explore internship and externship opportunities with practices from across the country.

"Every lab and discussion was valuable... a wide variety of topics were covered... I learned a ton and got to network with veterinarians and other students. I would recommend attending [The Future Equine Practitioners Weekend by Cavalcade] to anyone looking to pursue equine practice," shared one attendee of the experience.

The Future Equine Practitioners Weekend is pleased to have the collaborative support of Zoetis Equine, Torigen Pharmaceuticals, Boehringer Ingelheim, ProElite Feed, TeraFloat U.S &

SwissVet Veterinary Products, Hilltop BioSciences, Choice Medical Systems, Inc., Breeders Choice, Inc., Arthramid Vet, Blue Seal, NutraWorks Equine, IDEXX Labs, The Equine Practice Company, SOUND/ Antech, Bimeda USA, and Patterson Veterinary.

About Cavalcade Management Group

Established in 2019, the Cavalcade Management Group is a joint venture management company created by the partners of Millbrook Equine, Rhinebeck Equine, and The Equine Clinic at OakenCroft. The company aims to create a novel structure that offers the scale and support of a larger entity, while retaining the independence of the individual practices.

About Millbrook Equine:

Millbrook Equine Veterinary Clinic is committed to providing personalized care and accessible service to horses and their owners in the Hudson Valley and surrounding region. Our exclusively equine practice includes six doctors with varying interests and areas of expertise. With our team oriented, common-sense approach, we invest in the dreams of every client and their horse. Contact millbrookequine.com or visit us on Facebook or Instagram for more information.

About Rhinebeck Equine:

Rhinebeck Equine LLP is dedicated to improving the health and welfare of the horse, while exceeding our clients' expectations for compassionate care. The Rhinebeck Equine team offers a full spectrum of services providing comprehensive equine health care at the farm and in our full service referral hospital. Services include surgery, internal medicine, sport horse care, lameness evaluations, pre-purchase exams, reproduction, neonatal care, ophthalmology, dentistry and wellness care. For more information, visit www.rhinebeckequine.com or visit us on Facebook or Instagram.

About The Equine Clinic at OakenCroft:

The Equine Clinic at OakenCroft is a ten veterinarian equine exclusive practice serving the capital region of New York and western Massachusetts. Our veterinarians are available to take care of all your equine health needs, all day every day. We offer up-to-date techniques and technology for the benefit of our patients. Please visit our website at www.oakencroftequine.com and on Facebook and Instagram.
